

Trials Shock Repair Request Form

The shock repair/service usually takes 1-2 weeks from when we receive it. We do not require any up front payment, we will be in touch as soon as the repair/service is complete to sort out any additional parts needed for your repair and take payment.

Please fill out the form below, print and send with your shock to:

Splat Products Ltd
Unit 3 Broombank Park
Sheepbridge
Chesterfield S41 9RT
United Kingdom

We recommend using a courier to send the shock, the Royal Mail class "Compressed Gas" as a prohibited item, you can book a courier to collect, or drop it off somewhere local, using this website: <https://www.parcel2go.com/> (other courier services are available).

International orders: On the customs form please write "**For Repair and Return**", this way we shouldn't have to pay customs and duty when it arrives in the UK. Unfortunately if we are charged any customs fees, we will have to pass these charges on to you.
